06:00	09:00	12:00	15:00	18:00	21:00
Light rain	Heavy rain showers	Light rain showers	Light rain showers	Partly cloudy (night)	Partly cloudy (night)
Precipitation probability					
70%	40%	30%	30%	20%	10%

Forecast for Monday 26 Oct 2020

Weather: Showers frequent through to mid-morning, with some heavy, bringing the risk of hail and thunder. Showers only scattered from late morning and through the rest of Monday, with best of bright and sunny spells expected late afternoon.

Chance of cloud free mountain/hill tops above 600m: 40% through to mid-morning with bases broken from 450-600m, with patches lower down in heavier showers, becoming from mid-day 70% as bases lift and break.

Visibility: Mainly good outside of showers with distant ridges visible but perhaps obscured by showers in the distance at times. Visibility will lower to just a few kilometres in showers and it will be very poor in cloud over summits.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Some difficult conditions early to mid-morning, with occasional hill fog and the risk of thunderstorms. Highest winds gusts likely in/around showers.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
03:00 on Mon 26 Oct 2020	28.2mm	50.2mm	51.6mm

Forecast for Tuesday 27 Oct 2020

Weather: A cold start patchy ground frost in sheltered valleys but cloud soon increasing as rain spreads in from the west during the morning, bringing with it associated hill fog. This clears to the east during the afternoon, with sharp, perhaps thundery, showers following from the west mixed with sunny spells.

Maximum wind: South or southwest 30-35mph at first with gusts to 50mph. Gradually easing late morning, but still quite strong across the higher peaks.

Chance of cloud free mountain/hill tops above 600m: Nil during the morning with bases extensive from 450-600m, before increasing later as the rain clears eastwards.

Visibility: Becoming generally moderate or poor in the rain and sporadically in later showers. Very poor in hill fog.

Temperature: **Valleys:** Plus 5 Celsius increasing 13 Celsius during the afternoon
At 600m: Plus 3-5 Celsius
Freezing level: Above summits.
